

MIKAH MEYER

TECHNICAL RIDER

- Microphone (preference to wireless wearable, then wireless handheld, then stationary, in that order).
 - Projected Screen (either via projector or onto digital screens).
 - A room setup and audiovisual equipment that allows a PC to be connected to a projector with accompanying audio amplification via an HDMI cord (preferable), or VGA (visual) and standard 3.5mm audio jack (audio). Connection to PC should be on-stage, or the connection cord(s) should be long enough to allow presenter's laptop to be on-stage and viewable to presenter during entire speech. If no space is available on stage, a table or other setup that allows laptop screen to be viewable just beyond the lip of the stage is also sufficient.
-

Acceptance. We acknowledge and confirm that we have read and approved the terms and conditions set forth in this rider as deemed by our signature below.
